## INDEPENDENT AUDITOR'S REPORT

Board of Education  
Davis Joint Unified School District  
Davis, California

### Report on the Audit of the Financial Statements

#### ***Opinions***

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Davis Joint Unified School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Davis Joint Unified School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Davis Joint Unified School District, as of June 30, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Davis Joint Unified School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Davis Joint Unified School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Davis Joint Unified School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Davis Joint Unified School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 to 15 and the General Fund Budgetary Comparison Schedule, the Charter Schools Fund Budgetary Comparison Schedule, the Schedule of Changes in the District's Total Other Postemployment Benefits (OPEB) Liability, the Schedule of the District's Proportionate Share of the Net Pension Liability, and the Schedule of the District's Contributions on pages 60 to 66 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Davis Joint Unified School District's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and, except for that portion marked "unaudited", was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. The information, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole. The information marked "unaudited" has not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 31, 2023 on our consideration of the Davis Joint Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Davis Joint Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Davis Joint Unified School District's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

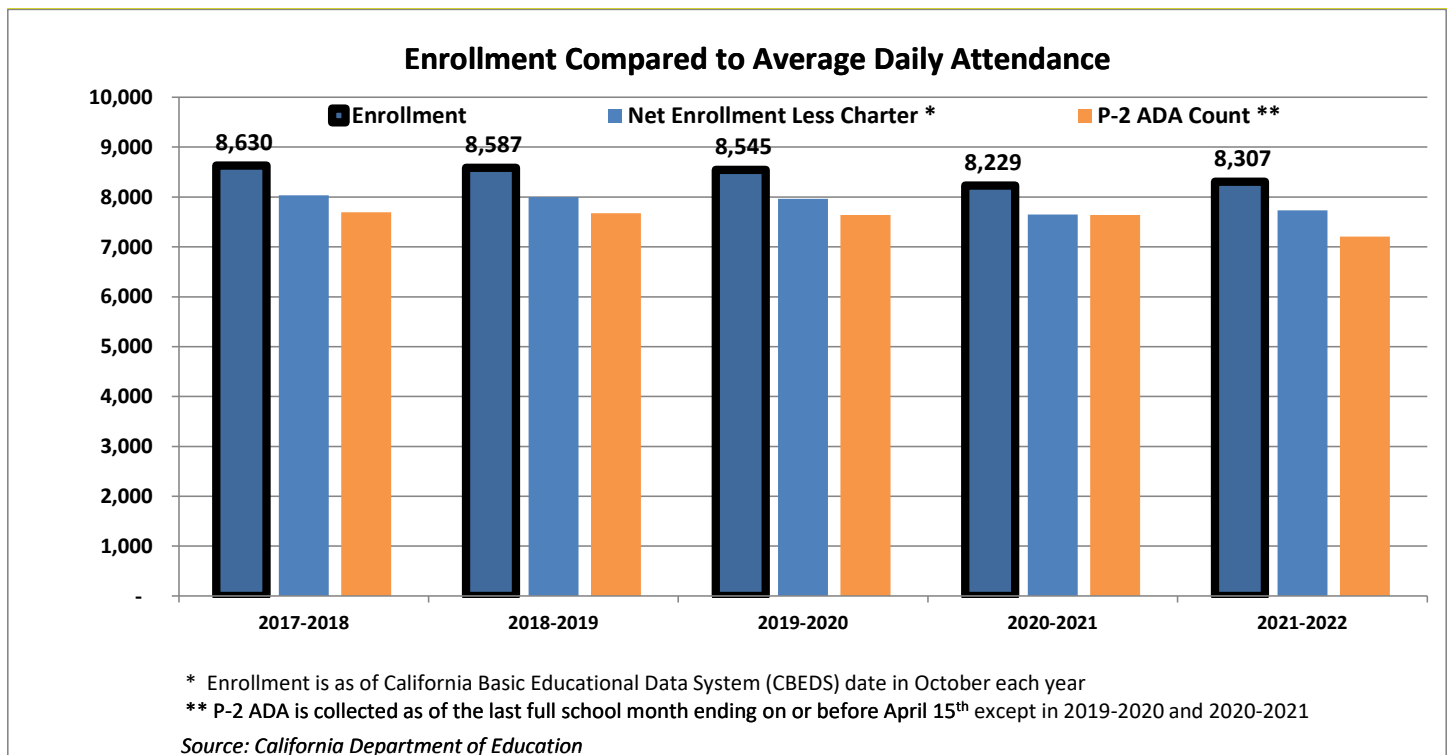

The Management's Discussion and Analysis (MD&A) Section of the audit report is District management's overall view of the District's financial condition and provides an opportunity to discuss important fiscal issues with the Board and the public. The MD&A is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34. Certain comparative information is required to be presented in this document.

### District Overview

Davis Joint Unified School District (the "District") is located in Solano and Yolo Counties. The District provides educational services to the residents in and around Davis, California. The District operates under the jurisdiction of the Yolo County Superintendent of Schools. Nearly 24% of enrolled students are English Learners, foster youth, or eligible for free or reduced-price meals.

For fiscal year 2021-2022, the District operated three elementary schools (grades TK-6), five elementary schools (grades K-6), one elementary school (grades K-3), three junior high schools (grades 7-9), one comprehensive high school (grades 10-12), one dependent charter school (grades 7-12), one continuation high school, one independent study program, one adult school, one preschool program, and a teacher credentialing program. As of June 30, 2022, the District employed 606 certificated employees and 552 classified employees.

For the 2021-2022 school year, the District's October enrollment for grades TK-12 was 8,307, an increase from 2020-2021 of 78 students. The graph below shows the District's enrollment trend, including charter school enrollment. Between 2017-2018 and 2019-2020, District enrollment steadily declined year over year, while average daily attendance (ADA) remained constant at nearly 96%. In 2020-2021, during distance learning, District enrollment dropped over 300 students and ADA was not collected. The District is funded based on its ADA, which is tracked daily with staff following up on areas of concern. Despite enrollment gains and a full year of in-person instruction, 2021-2022 ADA was only 93% as a result of COVID-19 pandemic related absences. The State of California provided relief to school districts for pandemic ADA impacts.

## **Governance**

The District is governed by a Board of Education consisting of five community members and two student representatives. Community members are elected to staggered four-year terms every two years. Students serve for a single school year. Board member elections for four-year terms are held among voters who reside in each of five Trustee areas.

## **District Mission and Board Goals**

The mission of the District, a leading center of educational innovation, is to ignite a love of learning and equip each student with the knowledge, skills, character, and well-being to thrive and contribute to an evolving and increasingly connected world, through a system characterized by:

- Optimal conditions and environments for all students to learn
- A team of talented, resourceful, and caring staff
- Transforming teaching, learning, and operations in our continuing pursuit of excellence
- Resourceful, transparent, and responsible fiscal planning, and
- A diverse and inclusive culture

This mission statement is the basis and guiding principles of the District.

### **Board Goals:**

- **Develop 21<sup>st</sup> Century Teaching and Learning Environments:** Creating safe and inclusive educational environments and practices designed to foster robust academic programs that engender the District Graduate Profile competencies in all students.
- **Close Achievement and Opportunity Gaps:** Employing an equity lens to ensure that current and future needs of those furthest from success and opportunity are always included in our decision-making and daily efforts.
- **Build Skills to Promote Social/Emotional Health:** Recognizing and developing social and emotional skills in students to increase academic success, improved behaviors and relationships, deeper connections to school, and happiness in adulthood.
- **Offer Excellent Programs for All Students:** Understanding student needs and preferences and evaluating current and future offerings to create optimal opportunities for all students to engage and thrive.
- **Achieve Fiscal Sustainability:** Achieving the Goals of the District in a financially responsible, transparent and sustainable manner, while increasing fiscal literacy throughout the community.

## **Graduate Profile**

Each year, an average of 700 students graduates from District high schools. The District's Graduate Profile defines 21<sup>st</sup> Century Learning by specifying the six outcomes that the District's community believes are important for student success in college, career, and beyond: critical thinking and problem solving; creativity and innovation; civic and cultural awareness; adaptability and resilience; collaboration; and communication.

## **Overview of the Financial Statements**

This annual report consists of three parts: (1) management's discussion and analysis (this section); (2) the financial statements; and (3) required supplementary information.

The remainder of the MD&A highlights the structure and contents of each of the statements.

The financial statements include two kinds of statements that present different views of the District: district-wide financial statements and fund financial statements. The financial statements also include notes that explain some of the information in the statements and provide more detail.

The first two statements are district-wide financial statements that provide both short-term and long-term information about the District's overall financial position. The Statement of Net Position includes all the District's assets and liabilities and deferred outflows and inflows of resources. All current year revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid. The District's activities are divided into two categories:

- Governmental activities – Most of the District's basic services are included here, such as regular and special education, operations, and administration. State support from Local Control Funding Formula (LCFF) and categorical apportionments finance most of these activities.
- Business-type activities – The District does not currently have any business-type activities.

These two financial statements start on page 16.

The remaining statements are fund financial statements that report on the District's operations in more detail than the district-wide statements. These statements begin on page 18.

The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

## **District-wide Financial Condition**

The Statement of Net Position is a district-wide financial statement that reports all that the District owns (assets) and owes (liabilities). Net position is one way to measure the District's financial health. Over time, increases or decreases in the District's net position are one indicator of whether its financial position is improving or declining.

Fiscal year 2002-2003 was the first year the District accounted for the value of capital assets and included these values as part of the financial statements. Capital assets include land, buildings, site improvements, equipment, and work in progress. We display the book value of all district assets including buildings and equipment, and related depreciation, in this financial statement. Land is accounted for at purchase cost, not market value, and is not depreciated. Many of our school sites have low values because the District acquired the land over five decades ago. School buildings are valued at their historical construction cost less depreciation.

## District-wide Financial Condition (Continued)

Comparative financial information as of June 30 from the Statement of Net Position is summarized in the following table:

|   | June 30, 2022   | June 30, 2021   | Variance       | % Difference |

|   |                 |                 |                |              |
| Net Investment in Capital Assets<br>(net of related debt) | \$16,592,978    | \$38,401,121    | (\$21,808,143) | -57%         |
| Restricted Net Position                                   | \$76,920,465    | \$35,488,456    | \$41,432,009   | 117%         |
| Unrestricted Net Position                                 | (\$106,011,142) | (\$111,614,845) | \$5,603,703    | 5%           |

| Total Net Position  | (\$12,497,699)  | (\$37,725,268)  | \$25,227,569   | 67%          |

At the end of fiscal year 2021-2022, the District had a total value of \$267,305,499 in capital assets. Total accumulated depreciation amounted to \$114,353,710. Net capital assets totaled \$152,951,789, an increase of \$46,068,556 from the prior year. This is a result of more capital projects being completed using Measure M General Obligation Bond proceeds.

Other assets include cash, investments, receivables, and stores inventory. A net decrease in other assets of \$7,455,014 is mostly a result of decreased General Fund receivables of apportionment deferrals and one-time COVID-19 resources as compared with the prior year.

Current and other liabilities include accounts payable and unearned revenue, which increased \$5,510,160 from the prior year because of increased supply and service expenditures, including construction in progress for capital projects.

The District ended the year with a total of \$314,543,453 in outstanding obligations. The decrease in total liabilities of \$37,593,306 was from reductions in net pension and total other post-employment benefit liabilities, as a result of market rate changes, offset by issuance of new certificates of participation.

## District-wide Financial Condition (Continued)

The Statement of Activities is a district-wide financial statement that reports the District's cost of instruction and other district activities, and the resources that fund individual and general activities of the District. Comparative financial information for the year ended June 30 is presented in the following table:

The District overall experienced a \$25,227,569 increase in net position. This was a \$20,370,448 increase from the prior year's change in net position. Total revenues increased 9%, or \$13,016,181, as compared to 2020-2021, while total expenditures decreased by 5%, or \$7,354,267.

## District-wide Financial Condition (Continued)

This year's decreases in Instruction and increases in Instruction-Related and Pupil Services' spending is attributed to overall decreases in and changes to restricted Federal, State and Local resources' expenditures in response to the COVID-19 pandemic. The charts below show the percentage share of expenditures by function and revenues by source as shown in the Statement of Activities.

## Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds. A fund consists of a self-balancing set of accounts that the District uses to track specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for specific purposes (such as cafeteria funds) or to show that it is properly using certain revenues (such as community facility funds).

The District has three kinds of funds:

- Governmental Funds - Most of the District's basic services are included in governmental funds, which focus on (1) how cash, and other financial assets that can be readily converted to cash, flow in and out; and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information at the bottom of the governmental funds statements that explain the relationship (or differences) between them.
- Proprietary Funds - Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. Enterprise funds (one type of proprietary fund) are the same as business-type activities, but provide more detail and additional information, such as cash flows. The District does not currently have any business-type activities. Internal service funds (another type of proprietary fund) are used to report activities that provide supplies and services for the District's other programs and activities. The District currently has one internal service fund, the Self-Insurance Fund.
- Fiduciary Funds - The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

## General Fund Financial and Budgetary Highlights

The General Fund accounts for the primary operations of the District. The District's initial budget is adopted by July 1. Over the course of the year, the District's budget is revised several times to account for revised and new categorical funding appropriations and related expenditures, and to update budgets for prior year carryover amounts. The budget may also be revised to reflect mid-year changes to the State Budget which affect district funding. Additionally, the District is required to prepare expenditure reports and must include multi-year projections at least twice a year. The following table summarizes the General Fund budget to actual information for the year ended June 30, 2022:

|                                      | Adopted Budget | Year End Budget | Actual        |
|--------------------------------------|----------------|-----------------|---------------|
| Total Revenues                       | \$107,522,849  | \$120,839,470   | \$118,442,183 |
| Total Expenditures                   | \$108,637,396  | \$126,276,955   | \$117,374,480 |
| Total Other Financing Sources/(Uses) | (\$1,573,263)  | \$2,076         | \$2,063,528   |

The net revenue increase between Adopted and Year End Budget was \$13,316,621, due to current year budgets for categorical funds, which are budgeted as grant award documents are received, including one-time resources. Also, the budgets for prior year unspent restricted and unrestricted program funds (carryover) are appropriated mid-year.

The net increase to the total expenditure budget between Adopted and Year End Budget was \$17,639,559, due to revisions to set up expenditures related to the one-time funds described above and the categorical program funds, which are budgeted after July 1 as grant award documents are received and school site plans are approved.

Actual revenues were \$2,397,286, or 2%, less than the Year End Budget, due to the timing of revenue recognition and estimated losses in the fair market value of investments. Actual expenditures were \$8,902,475, or 7%, below Year End Budget, due to unspent categorical revenue and one-time resources with multiyear expenditure periods that were budgeted to be spent in 2021-2022.

The following table summarizes the General Fund operational fund financial statements for the year ended June 30, 2022:

|                                       |               |
|---------------------------------------|---------------|
| Total Revenues                        | \$118,442,183 |
| Total Expenditures                    | \$117,374,480 |
| Total Other Financing Sources/ (Uses) | \$2,063,528   |
| Net Change                            | \$3,131,231   |

The charts on the following page further detail the percentage distribution of General Fund revenue sources and expenditure types for 2021-2022.

## District Reserves and Net Ending Balance

Revenues that have not been expended during a budget year are carried over for expenditure in the subsequent year and are identified as the District's "Net Ending Balance." Included within the projected net ending balance is a "reserve for economic uncertainties." The State requires districts of our size to retain an amount equal to 3% of our budgeted expenditures to cover unforeseen shortfalls in revenues or expenditures greater than budgeted. Also included in the net ending balance are carryover balances that originated from sources that can only be used for specific purposes. These "restricted" resources can only be spent on the purposes determined by the grantor, and the balances in these accounts carry the same restrictions as the originating revenue.

The District also has the option of committing or assigning the ending balance. Committing funds requires the Board of Education to designate the funds for any purpose by a majority vote at a Board meeting. Once the funds are committed, the amounts cannot be used for any other purpose unless the Board takes action to remove or change the constraints for the committed funds. The Board did not take any action in 2021-2022 to commit funds. Assigned ending balances are constrained by the District's intent but are neither restricted nor committed. An example of assignment is designating the ending balance to be used for a future textbook adoption.

The chart below represents the District's financial analysis of its Governmental and Proprietary Funds:

| Ending Fund Balances                                | June 30, 2022 | June 30, 2021 | Variance       |

## Capital Projects

In 2018, voters approved Measure M, a \$150 million general obligation bond measure. By 2021, the District issued all of the authorized bonds at a savings to taxpayers. The District continues facility improvements, modernization and construction projects that enhance the learning environment. The proceeds are intended to:

- Improve campus safety and security at all schools
- Modernize science, technology, engineering, arts and math classrooms and labs
- Update classrooms, science labs, innovation labs, athletic and other school facilities to meet current academic and safety standards
- Keep schools clean, well-maintained and in good condition
- Replace aging plumbing and electrical systems
- Improve school access for students and staff with disabilities and inclusiveness for all students

On March 19, 2020, the Board of Education reprioritized the Bond Program projects as Signature Projects to be completed from Measure M funding prior to 2025. Signature Projects include:

- Emerson/Da Vinci Junior High School Science Classrooms\*
- Birch Lane\*, César Chávez, North Davis, and Willett Elementary Multipurpose Rooms
- Early Learning Center at the Korematsu Campus\*
- DaVinci High School Tech Hub
- Davis High School STEM Building
- Davis High School Aquatic Center

All other Bond Program projects were prioritized beyond 2025. As of June 30, 2022, the District spent \$76,169,459 to date of Measure M funds on these projects and completed the projects noted with an asterisk (\*) above.

## District Indebtedness

As of June 30, 2022, the District incurred \$296,010,554 in long-term liabilities. Of this amount, \$150,890,000 are General Obligation Bonds backed by property tax increases voted on by District residents in 2000 and 2018 (reported in the Bond Interest and Redemption Fund), and \$41,511,609 are Certificates of Participation, backed by community facility funds (reported in the Capital Project for Blended Component Units Fund).

Over 27% of the long-term debt is related to the investment in employees' post-retirement. The District offers post-retirement health benefits (OPEB) to eligible retirees until age 65. The recognized total OPEB liability decreased by \$3,931,014 to \$18,639,092, while the net pension liability for State Teacher's and Public Employer's Retirement Funds decreased by \$53,176,000 to \$62,690,000.

## COVID-19 Pandemic

Since 2020, the District, the Board of Education, and the respective authorities continue to evaluate the COVID-19 pandemic's impact on students, families, staff, and the entire District community. In 2021-2022, the District started the year with a return to in-person instruction for the entire school year. The District received numerous Federal, State and Local one-time and ongoing resources targeted at mitigating pandemic related impacts such as attendance declines, community transmission of the COVID-19 virus, and learning loss.

## **Financial Outlook**

Issues facing the District in the years ahead include declining enrollment, increasing operating expenditures such as mandated pension contributions, facilities for program expansion for early learners, staffing shortages, and realigning expenditures to reflect District values and its upcoming 2023 Strategic Plan. The development of future budgets will be influenced by external variables such as enrollment changes, the State Budget, and renewal of a parcel tax that currently supports quality schools and maintains educational programs and services on every campus.

The District's 2022-2023 First Interim multiyear projections indicate that the District will be able to meet its financial obligations for the current and subsequent two years, inclusive of commitments to improve total compensation for all employees. The District continues to work with community partners and evaluate opportunities for improvement of its future financial outlook.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Davis Joint Unified School District (the "District") accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board. The following is a summary of the more significant policies:

Reporting Entity: The Board of Education is the level of government which has governance responsibilities over all activities related to public school education in the District. The District and Davis Schools Financing Corporation (the "Corporation") have a financial and operational relationship which meets the reporting entity definition criteria of the GASB Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, for inclusion of the Corporation as a blended component unit of the District. The financial activity of the Corporation has been included in the basic financial statements of the District as the Debt Service Fund.

The following are those aspects of the relationship between the District and the Corporation which satisfy GASB Codification Section 2100 criteria:

**A - Manifestations of Oversight**

1. The Corporation's Board of Directors were appointed by the District's Board of Education.
2. The Corporation has no employees. The District's Superintendent functions as an agent of the Corporation. This individual receives no additional compensation for work performed in this capacity.
3. The District exercises significant influence over operations of the Corporation as it is anticipated that the District will be the sole lessee of all facilities owned by the Corporation.

**B - Accountability for Fiscal Matters**

1. All major financing arrangements, contracts, and other transactions of the Corporation must have the consent of the District.
2. Any deficits incurred by the Corporation will be reflected in the lease payment of the District. Any surpluses of the Corporation revert to the District at the end of the lease period.
3. It is anticipated that the District's lease payments will be the sole revenue source of the Corporation.
4. The District has assumed a "moral obligation," and potentially a legal obligation, for any debt incurred by the Corporation.

**C - Scope of Public Service**

1. The Corporation was created for the sole purpose of financially assisting the District.

Basis of Presentation - Financial Statements: The basic financial statements include a Management's Discussion and Analysis (MD & A) section providing an analysis of the District's overall financial position and results of operations, financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure, and a focus on the major funds.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Basis of Presentation - Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole. Custodial funds are not included in the government-wide financial statements.

The Statement of Net Position and the Statement of Activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of Governmental Accounting Standards Codification Section (GASB Cod. Sec.) N50.118-.121.

*Program revenues:* Program revenues included in the Statement of Activities derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the District's general revenues.

*Allocation of indirect expenses:* The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term liabilities is considered an indirect expense and is reported separately on the Statement of Activities.

Basis of Presentation - Fund Accounting: The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

**A - Major Funds**

*General Fund* - The General Fund is the general operating fund of the District. It is used to account for all activities except those that are required to be accounted for in another fund. In keeping with the minimum number of funds principle, all of the District's activities are reported in the general fund unless there is a compelling reason to account for an activity in another fund.

*Charter Schools Fund* - The Charter Schools Fund is a special revenue fund used to account for the resources of charter school operations.

*Building Fund* - The Building Fund is a capital projects fund used to account for resources used for the acquisition or construction of major capital facilities and equipment.

*Special Reserve Fund* - The Special Reserve Fund is a capital projects fund used to account for resources used for the acquisition or construction of major capital facilities and equipment.

DAVIS JOINT UNIFIED SCHOOL DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2022

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**B - Other Funds**

The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. This includes the Student Activity, Adult Education, Child Development, and Cafeteria Funds.

The Capital Project Funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment. This includes the Capital Facilities, County School Facilities and Capital Project Fund for Blended Component Units Funds.

The Debt Service Funds are used to account for the accumulation of resources for, and the repayment of, general long-term debt principal, interest, and related costs. This includes the Bond Interest and Redemption and Debt Service Funds.

The Self-Insurance Fund is an internal service fund which is used to cover deductibles and other insurance liability risks. The principal operating revenues for the self-insurance fund are premiums received and related income.

The Foundation Trust Fund is used to account for assets held by the District as Trustee.

Basis of Accounting: Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Accrual: Governmental activities in the government-wide financial statements, the proprietary fund and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual: The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term liabilities, if any, is recognized when due.

Budgets and Budgetary Accounting: By state law, the Board of Education must adopt a final budget by July 1. A public hearing is conducted to receive comments prior to adoption. The District's Governing Board complied with these requirements.

Receivables: Receivables are made up principally of amounts due from the State of California and Categorical programs. The District has determined that no allowance for doubtful accounts was needed as of June 30, 2022.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Stores Inventory: Inventories are recorded using the purchase method in that the cost is recorded as an expenditure at the time the individual inventory items are requisitioned. Inventories are valued at historical cost and consist of expendable supplies held for consumption.

Capital Assets: The accounting and reporting treatment applied to the capital assets associated with a fund is determined by its measurement focus. Capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

Capital assets purchased or acquired, with an original cost of \$5,000 or more, are recorded at acquisition value of contributed asset. Donated assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlay that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Capital assets are depreciated using the straight-line method over 3 - 30 years depending on asset types.

Interfund Activity: Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Deferred Outflows/Inflows of Resources: In addition to assets, the Statement of Net Position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then. The District has recognized a deferred loss on refunding of debt, which is in the Statement of Net Position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter life of the refunded or refunding debt. The District has recognized a deferred outflow of resources related to the recognition of the net pension liability and total OPEB liability reported in the Statement of Net Position.

In addition to liabilities, the Statement of Net Position includes a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time. The District has recognized a deferred inflow of resources related to the recognition of the net pension liability and total OPEB liability reported in the Statement of Net Position.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State Teachers' Retirement Plan (STRP) and Public Employers Retirement Fund B (PERF B) and additions to/deductions from STRP's and PERF B's fiduciary net position have been determined on the same basis as they are reported by STRP and PERF B. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Certain investments are reported at fair value. The following is a summary of pension amounts in aggregate as of June 30, 2022:

|                                | <u>STRP</u>   | <u>PERF B</u> | <u>Total</u>  |
|--------------------------------|---------------|---------------|---------------|
| Deferred outflows of resources | \$ 13,740,394 | \$ 7,585,610  | \$ 21,326,004 |
| Deferred inflows of resources  | \$ 36,092,000 | \$ 11,448,000 | \$ 47,540,000 |
| Net pension liability          | \$ 33,574,000 | \$ 29,116,000 | \$ 62,690,000 |
| Pension expense                | \$ 4,716,974  | \$ 3,781,608  | \$ 8,498,582  |

Compensated Absences: Compensated absences benefits in the amount of \$961,439 are recorded as a long-term liability of the District. The liability is for the earned but unused benefits.

Accumulated Sick Leave: Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Unearned Revenue: Revenue from federal, state, and local special projects and programs is recognized when qualified expenditures have been incurred. Funds received but not earned are recorded as unearned revenue until earned.

Property Taxes: Secured property taxes are attached as an enforceable lien on property as of March 1. Taxes are due in two installments on or before December 10 and April 10. Unsecured property taxes are due in one installment on or before August 31. The County of Yolo bills and collects taxes for the District. Tax revenues are recognized by the District when received.

Net Position: Net position is displayed in three components:

1 - Net Investment in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent bond proceeds) of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

2- Restricted Net Position - Restrictions of the ending net position indicate the portions of net position not appropriate for expenditure or amounts legally segregated for a specific future use. The restriction for legally restricted programs represents the portion of net position restricted to specific program expenditures. The restriction for capital projects represents the portion of net position restricted for capital projects. The restriction for debt service represents the portion of net position available for the retirement of debt. The restriction for self-insurance represents the portion of net position restricted for payment of the contract services related to claims. It is the District's policy to use restricted net position first when allowable expenditures are incurred.

3 - Unrestricted Net Position - All other net position that does not meet the definitions of "restricted" or "net investment in capital assets".

Fund Balance Classifications: Governmental Accounting Standards Board Codification Sections 1300 and 1800, Fund Balance Reporting and Governmental Fund Type Definitions (GASB Cod. Sec. 1300 and 1800) implements a five-tier fund balance classification hierarchy that depicts the extent to which a government is bound by spending constraints imposed on the use of its resources. The five classifications, discussed in more detail below, are nonspendable, restricted, committed, assigned and unassigned.

**A - Nonspendable Fund Balance:**

The nonspendable fund balance classification reflects amounts that are not in spendable form, such as revolving fund cash and store inventory.

**B - Restricted Fund Balance:**

The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation. These are the same restrictions used to determine restricted net position as reported in the government-wide financial statements.

**C - Committed Fund Balance:**

The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Board of Education. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. Formal action by the Board of Education is required to remove any commitment from any fund balance. At June 30, 2022, the District had no committed fund balances.

**D - Assigned Fund Balance:**

The assigned fund balance classification reflects amounts that the District's Board of Education has approved to be used for specific purposes, based on the District's intent related to those specific purposes. The Board of Education can designate personnel with the authority to assign fund balances, however, as of June 30, 2022, no such designation has occurred.

**E - Unassigned Fund Balance:**

In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes.

In any fund other than the General Fund, a positive unassigned fund balance is never reported because amounts in any other fund are assumed to have been assigned, at least, to the purpose of that fund. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

Fund Balance Policy: The District has an expenditure policy relating to fund balances. For purposes of fund balance classifications, expenditures are to be spent from restricted fund balances first, followed in order by committed fund balances (if any), assigned fund balances and lastly unassigned fund balances.

While GASB Cod. Sec. 1300 and 1800 do not require districts to establish a minimum fund balance policy or a stabilization arrangement, GASB Cod. Sec. 1300 and 1800 do require the disclosure of a minimum fund balance policy and stabilization arrangements if they have been adopted by the Board of Education. At June 30, 2022, the District has not established a minimum fund balance policy, nor has it established a stabilization arrangement.

Eliminations and Reclassifications: In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Accordingly, actual results may differ from those estimates.

New Accounting Pronouncements: In June 2017, the GASB issued GASB Statement No. 87, *Leases*. GASB 87 requires the recognition of certain assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this statement a lease is required to be recognized as a lease liability and an intangible right to use lease asset and the lessor is required to recognize a lease receivable and deferred inflow of resources. This statement was originally effective for fiscal years beginning after December 15, 2019, but due to the adoption of GASB 95, the implementation date was extended to reporting periods beginning after June 15, 2021. District management performed an analysis and determined that the implementation of GASB 87 did not have a material impact on the District's financial statements and there was no restatement to beginning net position.

**NOTE 2 - CASH AND INVESTMENTS**

**NOTE 2 - CASH AND INVESTMENTS (Continued)**

Pooled Funds - Cash in County Treasury: In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the interest-bearing Yolo County Treasurer's Pooled Investment Fund. The District is considered to be an involuntary participant in an external investment pool. The fair value of the District's investment in the pool is reported in the financial statements at amounts based upon the District's prorate share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Pooled Funds - Local Agency Investment Fund: The District places certain funds with the State of California's Local Agency Investment Fund (LAIF). The District is a voluntary participant in LAIF, which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California and the Pooled Money Investment Board. The State Treasurer's Office pools these funds with those of other governmental agencies in the state and invests the cash. The fair value of the District's investment in the pool is reported in the accompanying financial statements based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The monies held in the pooled investments funds are not subject to categorization by risk category. The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. Funds are accessible and transferable to the master account within twenty-four hours' notice. Included in LAIF's investment portfolio are collateralized mortgage obligations, mortgage-backed securities, other asset-backed securities, and floating rate securities issued by Federal agencies, government-sponsored enterprises and corporations. LAIF is administered by the State Treasurer. LAIF investments are audited annually by the Pooled Money Investment Board and the State Controller's Office. Copies of this audit may be obtained from the State Treasurer's Office: 915 Capitol Mall; Sacramento, California 95814. The Pooled Money Investment Board has established policies, goals, and objectives to make certain that their goal of safety, liquidity and yield are not jeopardized.

Deposits - Custodial Credit Risk: The District limits custodial credit risk by ensuring uninsured balances are collateralized by the respective financial institution. Cash balances held in banks are insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC) and are collateralized by the respective financial institution. At June 30, 2022, the carrying amount of the District's accounts were \$232,893 and the bank balances were \$176,592, of which \$73,408 was uninsured.

Cash with Fiscal Agent: Cash with Fiscal Agent represents funds held by Fiscal Agents restricted for capital projects and repayment of debt. The District holds their funds with the Yolo County Treasurer. The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Interest Rate Risk: The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2022, the District had no significant interest rate risk related to cash and investments held.

Credit Risk: The District does not have a formal investment policy that limits its investment choices other than the limitations of state law.

Concentration of Credit Risk: The District does not place limits on the amount it may invest in any one issuer. At June 30, 2022, the District had no concentration of credit risk.

## **NOTE 7 - NET PENSION LIABILITY - STATE TEACHERS' RETIREMENT PLAN**

### *General Information about the State Teachers' Retirement Plan*

Plan Description: Teaching-certified employees of the District are provided with pensions through the State Teachers' Retirement Plan (STRP) - a cost-sharing multiple-employer defined benefit pension plan administered by the California State Teachers' Retirement System (CalSTRS). The Teachers' Retirement Law (California Education Code Section 22000 et seq.), as enacted and amended by the California Legislature, established this plan and CalSTRS as the administrator. The benefit terms of the plans may be amended through legislation. CalSTRS issues a publicly available financial report that can be obtained at <http://www.calstrs.com>.

Benefits Provided: The STRP Defined Benefit Program has two benefit formulas:

- CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS.
- CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS.

The Defined Benefit (DB) Program provides retirement benefits based on members' final compensation, age and years of service credit. In addition, the retirement program provides benefits to members upon disability and to survivors/beneficiaries upon the death of eligible members. There are several differences between the two benefit formulas which are noted below.

#### *CalSTRS 2% at 60*

CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, up to the 2.4 percent maximum.

CalSTRS calculates retirement benefits based on a one-year final compensation for members who retired on or after January 1, 2001, with 25 or more years of credited service, or for classroom teachers with less than 25 years of credited service if the employer elected to pay the additional benefit cost prior to January 1, 2014. One-year final compensation means a member's highest average annual compensation earnable for 12 consecutive months calculated by taking the creditable compensation that a member could earn in a school year while employed on a fulltime basis, for a position in which the person worked. For members with less than 25 years of credited service, final compensation is the highest average annual compensation earnable for any 36 consecutive months of credited service.

#### *CalSTRS 2% at 62*

CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

All CalSTRS 2% at 62 members have their final compensation based on their highest average annual compensation earnable for 36 consecutive months of credited service.

**Contributions:** Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Current contribution rates were established by California Assembly Bill 1469 (CalSTRS Funding Plan), which was passed into law in June 2014, and various subsequent legislation.

The CalSTRS Funding Plan established a schedule of contribution rate increases shared among members, employers, and the State of California to bring CalSTRS toward full funding by fiscal year 2046. California Senate Bill 90 and California Assembly Bill 84 (collectively the "Special Legislation"), were signed into law in June 2019 and June 2020, respectively, and provided supplemental contributions to the DB Program along with supplemental contribution rate relief to employers through fiscal year 2021–22.

A summary of statutory contribution rates and other sources of contributions to the DB Program pursuant to the CalSTRS Funding Plan and the Special Legislation, are as follows:

*Members* - Under CalSTRS 2% at 60, the member contribution rate was 10.250 percent of applicable member earnings for fiscal year 2021-2022. Under CalSTRS 2% at 62, members contribute 50 percent of the normal cost of their retirement plan, which resulted in a contribution rate of 10.205 percent of applicable member earnings for fiscal year 2021-2022.

According to current law, the contribution rate for CalSTRS 2% at 62 members is adjusted if the normal cost increases or decreases by more than 1 percent since the last time the member contribution rate was set. Based on the June 30, 2020, valuation adopted by the board in June 2021, the increase in normal cost was less than 1 percent. Therefore, the contribution rate for CalSTRS 2% at 62 members did not change effective July 1, 2021.

*Employers* – 16.920 percent of applicable member earnings. This rate reflects the original employer contribution rate of 19.10 percent resulting from the CalSTRS Funding Plan, and subsequently reduced for the 2.18 percentage points, to be paid on behalf of employers pursuant to the Special Legislation..

Beginning in fiscal year 2021–22, the CalSTRS Funding Plan authorizes the board to adjust the employer supplemental contribution rate up or down by a maximum of 1% for a total rate of no higher than 20.25% and no lower than 8.25%. In June 2021, the CalSTRS board voted to keep the employer supplemental contribution rate the same for fiscal year 2021–22; it remained at 10.85% effective July 1, 2021.

Through the Special Legislation approved in June 2019 and June 2020, the State made supplemental contributions of approximately \$2.2 billion to CalSTRS on behalf of employers to supplant the amounts submitted by employers for fiscal years 2019–20 through 2021–22. Specifically, employers will remit 1.03%, 2.95% and 2.18% less than is required by the CalSTRS Funding Plan for fiscal years 2019–20, 2020–21 and 2021–22, respectively.

The CalSTRS employer contribution rate increases effective for fiscal year 2021-2022 through fiscal year 2045-46 are summarized in the table below:

| <u>Effective Date</u>         | <u>Base Rate</u> | <u>Supplemental Rate Per CalSTRS Funding Plan</u> | <u>Rate Adjustment Per Special Legislation</u> | <u>Total</u> |
|-------------------------------|------------------|---|--|--------------|
| July 1, 2021                  | 8.250%           | 10.850%   | (2.180%)                                       | 16.920%      |
| July 1, 2022 to June 30, 2046 | 8.250%           | (1)   | N/A  | (1)          |
| July 1, 2046                  | 8.250%           | Increase from prior rate ceases in 2046-47        |  |              |

(1) The CalSTRS Funding Plan authorizes the board to adjust the employer contribution rate up or down by up to 1% each year, but no higher than 20.50% total and no lower than 8.250%.

The District contributed \$7,384,394 to the plan for the fiscal year ended June 30, 2022.

*State* – 10.828 percent of the members' calculated based on creditable compensation from two fiscal years prior.

The state is required to contribute a base contribution rate set in statute at 2.017%. Pursuant to the CalSTRS Funding Plan, the state also has a supplemental contribution rate, which the board can increase by up to 0.5% each fiscal year to help eliminate the state's share of the CalSTRS unfunded actuarial obligation by 2046. In June 2021, the board approved an increase of 0.5% for fiscal year 2021–22, which will increase the state supplemental contribution rate to 6.311% effective July 1, 2021.

Special legislation appropriated supplemental state contributions to reduce the state's portion of the unfunded actuarial obligation of the DB Program in fiscal years 2019-20 through 2022-23. These contributions are funded from future excess General Fund revenues, pursuant to the requirements of California Proposition 2, Rainy-Day Budget Stabilization Fund Act, which passed in 2014. Accordingly, the contribution amounts are subject to change each year based on the availability of funding. For fiscal year 2020–21, CalSTRS received \$297.0 million in supplemental state contributions from Proposition 2 funds. Of this total, approximately \$170.0 million is designated to cover forgone contributions due to the suspension of the 0.5% increase to the state supplemental contribution rate in fiscal year 2020–21. The remaining \$127.0 million is designated to reduce the state's share of CalSTRS' unfunded actuarial obligation.

- (1) The SBMA contribution rate excludes the \$72 million that is reduced from the required contribution in accordance with Education Code section 22954.
- (2) The board has limited authority to adjust the state contribution rate annually through June 2046 in order to eliminate the remaining unfunded actuarial obligation. The board cannot increase the supplemental rate by more than 0.5% in a fiscal year, and if there is no unfunded actuarial obligation, the supplemental contribution rate imposed would be reduced to 0%.
- (3) From July 1, 2046, and thereafter, the rates in effect prior to July 1, 2014, are reinstated, if necessary, to address any remaining unfunded actuarial obligation.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions* - At June 30, 2022, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

|  |                      |
|--|----------------------|
| District's proportionate share of the net pension liability                              | \$ 33,574,000        |
| State's proportionate share of the net pension liability<br>associated with the District | <u>19,976,000</u>    |
| Total  | <u>\$ 53,550,000</u> |

The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating school districts and the State. At June 30, 2021, the District's proportion was 0.074 percent, which was a decrease of 0.003 percent from its proportion measured as of June 30, 2020.

Differences between expected and actual experience and changes in assumptions are amortized over a closed period equal to the average remaining service life of plan members, which is 7 years as of the June 30, 2021 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

**NOTE 7 – NET PENSION LIABILITY – STATE TEACHERS’ RETIREMENT PLAN** (Continued)

**Actuarial Methods and Assumptions:** The total pension liability for the STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2020, and rolling forward the total pension liability to June 30, 2021. The financial reporting actuarial valuation as of June 30, 2020, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

|                                   |   |
|-----------------------------------|---|
| Valuation Date                    | June 30, 2020   |
| Experience Study                  | July 1, 2015 through June 30, 2018  |
| Actuarial Cost Method             | Entry age normal  |
| Investment Rate of Return         | 7.10%   |
| Consumer Price Inflation          | 2.75%   |
| Wage Growth                       | 3.50%   |
| Post-retirement Benefit Increases | 2.00% simple for DB, maintain 85%<br>Purchasing power level for DB, not<br>applicable for DBS/CBB |

**Discount Rate:** The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increase per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the STRP’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

**Mortality:** CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2019) table, issued by the Society of Actuaries.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS investment staff and investment consultants as inputs to the process.

The actuarial investment rate of return assumption was adopted by the CalSTRS board in January 2020 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS consulting actuary reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

**NOTE 8 – NET PENSION LIABILITY – PUBLIC EMPLOYER’S RETIREMENT FUND B**

*General Information about the Public Employer’s Retirement Fund B*

Plan Description: The schools cost-sharing multiple-employer defined benefit pension plan Public Employer’s Retirement Fund B (PERF B) is administered by the California Public Employees’ Retirement System (CalPERS). Plan membership consists of non-teaching and non-certified employees of public schools (K-12), community college districts, offices of education, charter and private schools (elective) in the State of California.

The Plan was established to provide retirement, death and disability benefits to non-teaching and noncertified employees in schools. The benefit provisions for Plan employees are established by statute. CalPERS issues a publicly available financial report that can be obtained at:

<https://www.calpers.ca.gov/docs/forms-publications/acfr-2021.pdf>

Benefits Provided: The benefits for the defined benefit plans are based on members’ years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years (10 years for State Second Tier members) of credited service.

Contributions: The benefits for the defined benefit pension plans are funded by contributions from members and employers, and earnings from investments. Member and employer contributions are a percentage of applicable member compensation. Member contribution rates are defined by law and depend on the respective employer’s benefit formulas. Employer contribution rates are determined by periodic actuarial valuations or by state statute. Actuarial valuations are based on the benefit formulas and employee groups of each employer. Employer contributions, including lump sum contributions made when districts first join the PERF B, are credited with a market value adjustment in determining contribution rates.

The required contribution rates of most active plan members are based on a percentage of salary in excess of a base compensation amount ranging from zero dollars to \$863 monthly.

Required contribution rates for active plan members and employers as a percentage of payroll for the year ended June 30, 2022 were as follows:

*Members* – The member contribution rate was 7.0 percent of applicable member earnings for fiscal year 2021-22.

*Employers* – The employer contribution rate was 22.91 percent of applicable member earnings.

The District contributed \$4,984,610 to the plan for the fiscal year ended June 30, 2022.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions* – At June 30, 2022, the District reported a liability of \$29,116,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021. The District’s proportion of the net pension liability was based on the District’s share of contributions to the pension plan relative to the contributions of all participating school districts. At June 30, 2021 the District’s proportion was 0.143 percent, which was an increase of 0.008 percent from its proportion measured as of June 30, 2020.

| Total  | <u>\$ 7,585,610</u>               | <u>\$ 11,448,000</u>             |

\$4,984,610 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending<br><u>June 30,</u> |                |

| 2026                           | \$ (3,107,251) |

Differences between expected and actual experience, changes in assumptions and changes in proportion and differences between District contributions and proportionate share of contributions are amortized over a closed period equal to the average remaining service life of plan members, which is 4 years as of the June 30, 2021 measurement date. Deferred outflows and inflows related to differences between projected and actual earnings on plan investments are netted and amortized over a closed 5-year period.

Actuarial Methods and Assumptions: The total pension liability for the Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2020, and rolling forward the total pension liability to June 30, 2021. The financial reporting actuarial valuation as of June 30, 2020, used the following actuarial methods and assumptions, applied to all prior periods included in the measurement:

|                                   |  |

| Post-retirement Benefit Increases | Contract COLA up to 2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.50% thereafter |

The mortality table used was developed based on CalPERS specific data. The table includes 15 years of mortality improvements using Society of Actuaries 90% of Scale MP 2016. For more details on this table, please refer to the 2017 experience study report.

All other actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from 1997 to 2015, including updates to salary increase, mortality and retirement rates. Further details of the Experience Study can be found at CalPERS' website.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

(1) An expected inflation rate of 2.00% used for this period

(2) An expected inflation rate of 2.92% used for this period.

Discount Rate: The discount rate used to measure the total pension liability was 7.15 percent. A projection of the expected benefit payments and contributions was performed to determine if assets would run out. The test revealed the assets would not run out. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability for the Plan. The results of the crossover testing for the Plan are presented in a detailed report that can be obtained at CalPERS' website.

**NOTE 8 - NET PENSION LIABILITY - PUBLIC EMPLOYER'S RETIREMENT FUND B** (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical and forecasted information for all the funds' asset classes, expected compound (geometric) returns were calculated over the short term (first 10 years) and the long term (11+ years) using a building-block approach. Using the expected nominal returns for both short term and long term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate: The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.15 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.15 percent) or 1-percentage-point higher (8.15 percent) than the current rate:

|  | 1%<br>Decrease<br>(6.15%) | Current<br>Discount<br>Rate (7.15%) | 1%<br>Increase<br>(8.15%) |

Pension Plan Fiduciary Net Position: Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial report.

**NOTE 9 - OTHER POSTEMPLOYMENT BENEFITS**

Plan Description: In addition to the benefits described in Notes 7 and 8, the District provides post-employment health care benefits, under a single employer defined benefit OPEB plan, until age 65 for certain groups of employees who retire from the District and after attaining age 55 with at least 15 years of service. These postemployment health care benefit provisions are established per contractual agreement with employee groups. The District pays up to \$125 per month for health benefits of these retirees to the age of 65. The plan does not issue separate financial statements.

The Plan, which is administered by the District, allows employees who retire and meet retirement eligibility requirements to continue health coverage as a participant in the District's plan. The District's Governing Board has the authority to establish or amend the benefit terms offered by the Plan. The District's Governing Board also retains the authority to establish the requirements for paying the Plan benefits as they come due. As of June 30, 2022 the District has not accumulated assets in a qualified trust for the purpose of paying the benefits related to the District's Total OPEB Liability.

Employees Covered by Benefit Terms: The following is a table of plan participants at June 30, 2022:

|  | <u>Number of<br/>Participants</u> |
|--|-----------------------------------|
| Inactive Plan members, covered spouses, or beneficiaries<br>currently receiving benefits | 230                               |
| Active employees   | <u>926</u>                        |
|  | <u>1,156</u>                      |

Benefits Provided: The benefits provided are the same as those provided for active employees.

Contributions: California Government Code specifies that the District's contribution requirements for covered employees are established and may be amended by the Governing Board. Retirees participating in the group insurance plans offered by the District are required to contribute 100% of the active premiums. In future years, contributions are assumed to increase at the same rate as premiums. The District's premium rates being charged to these retirees are lower than the expected cost for a retiree population under age 65. Thus, an implicit subsidy exists as a result of this difference between the actual cost and the true retiree cost.

Contributions to the Plan from the District were \$458,643 for the year ended June 30, 2022. Employees are not required to contribute to the OPEB plan.

*Total OPEB Liability*

The District's total OPEB liability was measured as of June 30, 2022 and was determined by an actuarial valuation as of June 30, 2022.

Actuarial Assumptions: The total OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

**NOTE 10 - JOINT POWERS AGREEMENTS**

Davis Joint Unified School District participates in one joint venture under joint powers agreement (JPA) with North Bay Schools Insurance Authority (NBSIA). The relationship between Davis Joint Unified School District and the JPA is such that the JPA is not a component unit of the District for financial reporting purposes.

NBSIA arranges for and provides property, liability, and workers' compensation insurance coverage for its members. The JPA's governing board consist of a representative from each member district. The board controls the operations of the JPA, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district is obligated to pay an amount commensurate with the level of coverage requested and may be subject to assessments. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. have been no significant reductions in insurance coverage in the prior year.

Condensed financial information for the year ended June 30, 2021 (most recent information available) is as follows:

**NOTE 11 - CONTINGENCIES**

The District is subject to legal proceedings and claims which arise in the ordinary course of business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect the financial position or results of operations of the District.

Also, the District has received federal and state funds for specific purposes that are subject to review or audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursements will not be material.

As of June 30, 2022, the District has approximately \$18.5 million in outstanding commitments on ongoing construction contracts.

DAVIS JOINT UNIFIED SCHOOL DISTRICT  
NOTE TO REQUIRED SUPPLEMENTARY INFORMATION  
For the Year Ended June 30, 2022

---

**NOTE 1 - PURPOSE OF SCHEDULES**

Budgetary Comparison Schedule: The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Education to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund and the Charter Schools Fund is presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

Schedule of Changes in Total Other Postemployment Benefits (OPEB) Liability: The Schedule of Changes in Total OPEB Liability is presented to illustrate the elements of the District's Total OPEB liability. There is a requirement to show information for 10 years. However, until a full 10- year trend is compiled, governments should present information for those years for which information is available. The District has not accumulated assets in a qualified trust for the purpose of paying the benefits related to the District's Total OPEB Liability.

Schedule of the District's Proportionate Share of the Net Pension Liability: The Schedule of the District's Proportionate Share of the Net Pension Liability is presented to illustrate the elements of the District's Net Pension Liability. There is a requirement to show information for 10 years. However, until a full 10-year trend is compiled, governments should present information for those years for which information is available.

Schedule of the District's Contributions: The Schedule of the District's Contributions is presented to illustrate the District's required contributions relating to the pensions. There is a requirement to show information for 10 years. However, until a full 10- year trend is compiled, governments should present information for those years for which information is available.

Changes of Benefit Terms: There are no changes in benefit terms reported in the Required Supplementary Information.

Changes of Assumptions: The changes in assumptions for the total OPEB liability included a change in the discount rate, from 3.50%, 2.20%, 2.16% and 3.54% in the June 30, 2019, 2020, 2021 and 2022 actuarial report to actuarial reports, respectively.

DAVIS JOINT UNIFIED SCHOOL DISTRICT  
ORGANIZATION  
June 30, 2022

---

Davis Joint Unified School District was established on July 1, 1962 and comprises an area located in Solano and Yolo Counties. There were no changes in District boundaries during the current year. The District covers an area of approximately 15 square miles. The District operated nine elementary schools (three TK-6, five K-6, and one K-3 grades schools), three junior high schools (grades 7-9), one comprehensive high school (grades 10-12), and one dependent charter school (grades 7-12). The District also operated an independent study program, a continuation high school, an adult education school, a preschool program, and a teacher credentialing program.

The General Fund fund balance has increased by \$7,493,733 over the past three years. The fiscal year 2022-2023 budget projects an increase of \$2,219,821. For a district this size, the State of California recommends available reserves of at least 3 percent of total general fund expenditures, transfers out and other uses (total outgo). The District has met this requirement.

The District has incurred an operating surplus for two of the past three years, and anticipates incurring an operating surplus during the fiscal year 2022-2023.

Total long-term liabilities have decreased by \$46,783,318 over the past two years.

Average daily attendance has decreased by 430 over the past two years. The District anticipates an increase of 204 ADA for fiscal year 2022-2023.

**NOTE 1 - PURPOSE OF SCHEDULES**

Schedule of Average Daily Attendance: Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time: The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206.

Schedule of Expenditure of Federal Awards: The Schedule of Expenditure of Federal Awards includes the federal award activity of the District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate allowed on the Uniform Guidance.

Reconciliation of Unaudited Actual Financial Report with Audited Financial Statements: This schedule provides the information necessary to reconcile the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis – Unaudited: This schedule provides trend information on the District's financial condition over the past three years and its anticipated condition for the 2022-2023 fiscal year, as required by the State Controller's Office.

Schedule of Charter Schools: This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

**NOTE 2 - EARLY RETIREMENT INCENTIVE PROGRAM**

Education Code Section 14502 requires certain disclosure in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Sections 22714 and 44929. For the fiscal year ended June 30, 2022, the District did not adopt such a program.

In our opinion, except for the noncompliance described in the Basis of Qualified Opinion section of our Report, Davis Joint Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the state laws and regulations referred to above for the year ended June 30, 2022.

### ***Basis for Qualified Opinion on Compliance with State Laws and Regulations***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of the *2021-2022 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* (Audit Guide). Our responsibilities under those standards and the Audit Guide are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

As described in Findings 2022-002, 2022-003 and 2022-004 in the accompanying Schedule of Audit Findings and Questioned Costs, Davis Joint Unified School District did not comply with the requirements regarding Attendance, Independent Study and Expanded Learning Opportunities Grant (ELO-G). Compliance with such requirements is necessary, in our opinion, for Davis Joint Unified School District to comply with the requirements applicable to the state laws and regulations referred to above.

### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's government programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Audit Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of the government program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Audit Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Audit Guide, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

---

(Continued)

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

***Other Matter***

Davis Joint Unified School District's responses to the noncompliance findings identified in our audit are included in the accompanying Schedule of Audit Findings and Questioned Costs. Davis Joint Unified School District's responses were not subjected to the auditing procedures applied in the audit of State Compliance and, accordingly, we express no opinion on them.

**Purpose of this Report**

The purpose of this report on compliance is solely to describe the scope of our testing of compliance and the results of that testing based on the requirements of the State of California's *2021-22 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS

Board of Education  
Davis Joint Unified School District  
Davis, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Davis Joint Unified School District as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Davis Joint Unified School District's basic financial statements, and have issued our report thereon dated January 31, 2023.

#### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Davis Joint Unified School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Davis Joint Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Davis Joint Unified School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as Finding 2022-001 that we consider to be a material weakness.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Davis Joint Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

---

(Continued)

## **Davis Joint Unified School District's Response to Finding**

*Government Auditing Standards* requires the auditor to perform limited procedures on the Davis Joint Unified School District's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The Davis Joint Unified School District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL  
OVER COMPLIANCE; REQUIRED BY THE UNIFORM GUIDANCE

Board of Education  
Davis Joint Unified School District  
Davis, California

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Davis Joint Unified School District's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Davis Joint Unified School District's major federal programs for the year ended June 30, 2022. Davis Joint Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Davis Joint Unified School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Davis Joint Unified School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Davis Joint Unified School District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Davis Joint Unified School District's federal programs.

## ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Davis Joint Unified School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Davis Joint Unified School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we,

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Davis Joint Unified School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of Davis Joint Unified School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Davis Joint Unified School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

---

(Continued)

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SECTION II - FINANCIAL STATEMENT FINDINGS

**2022-001 MATERIAL WEAKNESS – FINANCIAL REPORTING/CASH IN COUNTY TREASURY (30000)**

Criteria: In accordance with Governmental Accounting Standards Board Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the District assesses the market to book value of Cash in County Treasury at June 30, 2022.

Condition: The District's controls over financial reporting failed to detect the GASB No. 31 fair market value adjustment was recorded incorrectly. As a result, the District financial position was overstated by \$8,817,926.

Effect: Overstatement of cash in county treasury as of June 30, 2022 for each fund with cash in county treasury.

Cause: The District's entry related to the GASB 31 fair market value adjustment was inversely recorded for funds 01, 09, 11, 12, 13, 21, 25, 35, 40, 67 and 73.

Fiscal Impact:

|                      |                       |
|----------------------|-----------------------|
| General Fund         | \$ (1,153,318)        |
| Charter Schools Fund | (225,766)             |
| Building Fund        | (4,318,424)           |
| Special Reserve Fund | (1,517,444)           |
| Non-Major Funds      | (1,583,170)           |
| Self-Insurance Fund  | (13,488)              |
| Trust Fund           | <u>(6,316)</u>        |
|                      | <u>\$ (8,817,926)</u> |

Recommendation: The District's internal control procedures related to financial close and financial reporting should include procedures to ensure journal entries are recorded correctly. Financial review procedures should be enhanced to ensure financial results of the District are accurate.

Views of Responsible Officials and Planned Corrective Actions: Existing District internal control procedures include a secondary review of all manual journal entries by the Director of Fiscal Services prior to posting to ensure journal entries are recorded correctly. We believe the control weakness occurred for several reasons including the infrequency of booking this adjusting entry, staffing shortages within the department, turnover in the Director position, and insufficient training. Staff will continue to receive professional development to support their assigned duties. To strengthen existing internal controls and ensure established procedures are followed, management will perform an additional level of review of manual adjusting entries and corresponding supporting documentation to ensure accuracy.

In addition, it is important to note that this entry is a noncash adjusting entry for unrealized gains or losses on cash held in investment pools by the County Treasurer. It is an annual entry to report cash at market value as of June 30 if the value is materially different from the book value of reported cash. This year's losses were the result of market conditions. These losses will remain unrealized and will resolve over time as investment securities mature and are reinvested at current market rates.

SECTION IV - STATE AWARD FINDINGS AND QUESTIONED COSTS

**2022-002 DEFICIENCY – STATE COMPLIANCE – ATTENDANCE (10000)**

Criteria: Attendance Accounting and Reporting in California Public Schools, Title 5, CCR, Sections 401 and 421 (b) and Education Code Sections 44809 - Each LEA must develop and maintain accurate and adequate records to support attendance reported to the State.

Condition: The District did not report ADA for Students in Continuation Education included in Section A, Grades 9-12 only on line B-6 and did not appropriately classify students grade on the Extended Year Special Education [E.C. 56345(b)(3)] on line A-2 of the Second Period and Annual Reports of Attendance.

Context: We performed the audit procedures enumerated in the State of California 2021-22 *Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* and identified an initial error.

Effect: Incorrectly reported two line items on Second Period and Annual Reports of Attendance.

Cause: The errors were the result of clerical errors.

Fiscal Impact: Not applicable as there was no change in total ADA reported.

Recommendation: The District should submit revised P2 and Annual reports.

Views of Responsible Officials and Planned Corrective Actions: The District will submit revised 2021-22 P2 and Annual reports as soon as the Principal Apportionment Data Collection portal is available for LEAs to submit prior year corrections. Staff responsible for entering data and approving report submission will receive additional training on how to complete and review the reports.

**2022-003 DEFICIENCY – STATE COMPLIANCE – INDEPENDENT STUDY (40000)**

Criteria: The independent study agreement must include a statement of the number of course credits or, for the elementary grades, other measures of academic accomplishment appropriate to the agreement, to be earned by the pupil upon completion.

Condition: For three of the agreements, in the 9-12 grade span, selected for testing, there was no indication of number of course credits to be earned upon completion.

Context: We performed the audit procedures enumerated in the State of California 2021-22 *Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* and identified an initial error.

Effect: Overstatement of 0.1 ADA.

Cause: The errors were the result of clerical errors.

Fiscal Impact: Not applicable as the total impact is less than 0.5 ADA.

Recommendation: The District should ensure agreements are properly completed.

Views of Responsible Officials and Planned Corrective Actions: There is no differentiation for short term independent study (STIS) in the compliance requirements. The three agreements found noncompliant are for students completing STIS. The number of school days covered by the agreements are included, but not the equivalent course credit to be earned for those days. The District reviewed its STIS Written Agreement along with its procedures for recording the number of course credits to ensure that the agreements for all secondary pupils includes the required number of course credits to be earned upon completion.

**2022-004 DEFICIENCY – STATE COMPLIANCE – EXPANDED LEARNING OPPORTUNITIES GRANT (ELO-G) (40000)**

Criteria: The District is required to submit the ELO-G plan, to the County Office of Education, describing how the apportioned funds would be used within 5 days of adoption pursuant to subdivision (e) of education Code section 43522.

Condition: The District adopted the ELO-G plan at the May 20, 2021 board meeting however submitted the plan to the County Office of Education on May 19, 2021, which was prior to the adoption.

Context: We performed the audit procedures enumerated in the State of California 2021-22 *Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* and identified an initial error.

Effect: No effect.

Cause: The District did not submit the adopted plan within the required times.

Fiscal Impact: Not applicable.

Recommendation: The District should ensure the adopted plan is submitted to the County Office of Education within 5 days of adoption.

Views of Responsible Officials and Planned Corrective Actions: The District uploaded its plan, in advance of the Board meeting to Document Tracking Services (DTS), a repository that is also accessible by the County Office of Education. When the same plan was adopted the next day by the Board of Education, staff did not repost the approved plan in DTS. In the future, the District will ensure that it submits plans to the appropriate agencies in accordance with the law.
