

2022-2023 Parent Permission/Waiver for Use of Instructional Technology

The DJUSD has the responsibility to deliver quality curriculum and education inclusive of 21st Century tools and skills used widely in educational and professional environments. Therefore, the District will choose such tools and platforms for use in classrooms and programs that are approved based on their contribution to the overall education of DJUSD students with minimal risk to safety or privacy. I understand that the District will educate and inform students of safe use of the Internet and online tools.

I further understand that I have the right and opportunity to review the programs used in the classroom. I hereby give permission for my child (“Student”) to use the tools and platforms that have been expressly chosen and approved by DJUSD for educational purposes. The Davis Joint Unified School District uses network access, internet, G-Suite, and email for educational purposes. Using these resources, students may collaboratively create, edit, and share files and websites for school related projects and communicate with other students, teachers and others. Many services are online and available 24/7 from any internet-connected device. By signing this letter, you are acknowledging that you have read and understand the following laws and policies, discussed them with your K-12 child, and permit him/her to use technology resources as defined within them:

- Family Educational Rights & Privacy Act (FERPA)
<http://www.ed.gov/policy/gen/guid/fpco/ferpa/index.html>
- Children’s Internet Protection Act (CIPA) <http://www.fcc.gov/guides/childrens-internet-protection-act>
- Children’s Online Privacy Protection Act (COPPA)
<http://www.consumer.ftc.gov/articles/0031-protecting-your-childs-privacy-online>
- DJUSD Student Acceptable Use of Technology Agreement
