

DJUSD Bond Project at Your Neighborhood School

Dear Neighbor,

Design planning is now under way for a new Birch Lane Elementary multipurpose room (MPR), which is tentatively scheduled to be completed by Summer 2022. The new multipurpose facility will include open space to accommodate assembly seating for the entire school (up to 650 students). This new and improved space will include a stage, music room, warming kitchen, staff, student and all-gender restrooms, as well as utility infrastructure improvements. The building design will be identical to that designed for César Chávez, North Davis, and Willett Elementary Schools.

Virtual Community Outreach Invitation

To protect the health, well-being, and public safety of students, employees and community members and consistent with the current shelter-in-place orders from the State of California and guidelines from Yolo County, DJUSD Bond Program Community Outreach meetings cannot be held in person. To share information about the facility improvements at Birch Lane Elementary a pre-recorded presentation has been posted on the Bond website at www.djUSD.net/bond/outreach. Public comment, questions or concerns about this project are welcome and encouraged.

We will be reviewing feedback emailed to facilityplanning@djUSD.net until the end of the public comment period, Sunday, July 26.
